

REMARKS

Claims 1 and 2 were rejected under 35 U.S.C. § 112, second paragraph. Claim 1 has been amended to delete the relative term “below” and more specifically claim the position and interrelation between the fourth external folding (6), the fifth reversed folding (7), and the chamfers (8). Likewise, the allegedly indefinite terms “they” and “its” are deleted and the claim amended to more specifically recite the interrelation between the foldings and the chamfers (9). Additionally, claim 1 has been amended to specify three spherical concavities (10) and two spherical concavities (11). Applicant respectfully submits that each of these amendments is supported by the specification, and therefore no new matter has been added.
